

Rohan Iyer

Backend Engineer

rohan.iyer@example.com · +91 99300 44556

github.com/rohaniyer · leetcode.com/u/rohaniyer

Technical Skills

Python, FastAPI, Django, PostgreSQL, Redis, Microservices, REST API, Git, Celery, RabbitMQ

Experience

Backend Engineer — FinCore (2020–Present)

- Designed payment-ledger microservices in FastAPI on PostgreSQL. Owns the Redis caching + idempotency layer for transaction APIs.

Software Engineer — Tezzy (2017–2020)

- Built Django billing services and async workers.

Projects

Idempotent Payments API — Exactly-once payment processing using Redis locks and Postgres outbox.

Education

B.E., Information Technology — PICT Pune, 2017
